

Tushar Ramhari Chaugule

+91-8767088815 chauguletushar2021@gmail.com LinkedIn GitHub

Summary

Computer Engineering student skilled in MERN stack, Python automation, and secure software development. Built multiple full-stack and desktop applications focused on scalability, authentication, and system automation.

Education

JSPM's Rajarshi Shahu College of Engineering, Pune	2023 – 2027
B.Tech in Computer Engineering	CGPA: 8.65
Disha Public School & Junior College, Satara	2021 – 2023
HSC, Maharashtra Board	65.67%
Nutan Vidyalaya, Solapur	2020 – 2021
SSC, Maharashtra Board	84.67%

Technical Experience

Student Developer & Projects	2023 – Present
- Building production-ready full-stack and desktop applications - Participating in hackathons and collaborative coding projects - Developing cybersecurity and AI-driven system solutions	

Projects

KS Sentinel – Web-based Workspace Environment	2026
<i>MERN Stack, React, Node.js, MongoDB, Vite — GitHub</i>	
- Developed a browser-based workspace environment featuring draggable and resizable window components inspired by desktop operating systems - Built RESTful APIs for user configuration management and persistent workspace state storage using MongoDB - Implemented responsive UI architecture with real-time interactions, dynamic routing, and optimized component rendering - Designed modular frontend structure using React and Vite for scalability and maintainability	
AI Workspace	2025
<i>React, Node.js, Express.js, MongoDB, JWT Authentication — GitHub</i>	
- Built a full-stack AI workspace platform supporting chat-based interactions and AI-assisted content generation - Implemented secure JWT-based authentication, protected routes, and session handling for user management - Developed persistent chat and workspace history storage using MongoDB for improved user experience - Created scalable backend APIs with Express.js to manage AI requests, user data, and conversation workflows	
Attendance Management System	2024
<i>C++, Python, Tkinter, CSV Automation — GitHub</i>	
- Developed attendance management software in both console-based and GUI-based implementations for flexible usage - Implemented duplicate attendance prevention, multi-session tracking, and automated attendance record generation - Integrated CSV-based data storage and Python automation for attendance reporting and management - Added WhatsApp notification automation to send attendance alerts and updates efficiently	

Skills

Technical Skills:

- **Languages:** Python, JavaScript, C++, SQL
- **Frontend:** React.js, HTML, CSS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL, SQLite
- **Tools:** Git, GitHub, Linux, VS Code

Soft Skills:

- Problem Solving, Team Collaboration, Event Management
- Adaptability, Fast Learning, Attention to Detail

Certificates

- Ethical Hacking – NPTEL (IIT Kharagpur)
- AWS Workshop – 3 Days Hands-on Training
- Web Security – Fundamentals and Best Practices

Achievements

- Finalist in Fusion 2025 Hackathon organized by Sinhgad Institute
- “Built 5+ full-stack and desktop applications (GitHub)”
